

QUESTION: Does America become anti-Israel after our rapture? We still have a number of pro-Israel Christian congressmen who will stand up for Israel and Christians who will do the same. Don't you think that the destruction of the United States could be only economic and not literal?

ANSWER: America is not mentioned in Scripture at all, so whether it becomes anti-Israel or not is not the point. America will most likely be reduced to a position of little or no power and influence, so economic destruction would certainly be included. How and when all this will happen is not shown in Scripture, and we cannot speculate.
